

Discovery, Adventure & Young Achievers

February at the GAET Counselling Centre reflected the joy of learning through experience. Students stepped beyond the classroom to explore new environments, participate in community initiatives and confidently showcase their abilities. Whether through performance, outdoor adventure, or scientific exploration, each activity created opportunities for discovery, participation, and growth.

Khel Katha – An Inclusive Platform for Talent

Students from Project ANVAY and AYAAN participated in Khel Katha, a student-run non-profit initiative built on the philosophy of Each One Teach One. The platform encourages children to learn together while celebrating their unique talents. Our students delivered a lively synchronised dance performance in vibrant costumes. Their enthusiasm, coordination and radiant smiles captured the spirit of the audience inspired by their confidence and joy.

Rocksport Yeoor Hills – Learning Through Adventure

Students from Project MKP to Level C experienced an exciting day camp at Rocksport Yeoor Hills, Thane, surrounded by nature and fresh air. The camp introduced students to a range of soft adventure activities including ziplining, wall climbing, obstacle courses, music and dance. These activities supported confidence building, coordination and teamwork while allowing students to reconnect with nature. The day was filled with laughter, exploration and memorable learning experiences.

Wonder Lab 2026 – Curiosity in Action

The Wonder Lab Science Exhibition, held on 24 February at GAET Counselling Centre, Vasant Vihar High School, Thane, celebrated curiosity, experimentation and scientific thinking. Students confidently presented models and experiments exploring topics such as food adulteration, water purification and conservation, force and machines, and the respiratory system.

Projects on waste segregation and compost making reflected growing environmental awareness and responsible thinking. The exhibition created an engaging environment where students could explore ideas, ask questions and present their learning with pride.

Hobby Camps in May 2026

GAET Counselling Centre will be hosting **Special Hobby Camps** in May 2026, designed to nurture creativity, movement, and skill development. These camps will be open to GCC students as well as children with special needs from the wider community, along with their parents or caregivers.

Camp Offerings:

- Skating and Gymnastics
- Movement and Yoga
- Painting
- Handwork

Further details regarding schedules and registrations will be shared soon.

Impact Meter

This month, our students -

Students performed on an inclusive community platform through Khel Katha

Outdoor adventure activities strengthened confidence and teamwork

Student-led science projects encouraged curiosity and problem-solving

Upcoming hobby camps will extend inclusive learning opportunities to the wider community

At GAET Counselling Centre, every experience becomes a pathway for growth. February reminded us that learning happens in many forms like movement, exploration, creativity and shared experiences. **We thank our parents and team members for their continued support as we create opportunities that help every child participate, discover, and grow with confidence.**

Warm Regards,
GAET Counselling Centre
